Technical Skills

Tech Stack

● React JS ● Node JS ● DOM ● Prisma ● Next JS ● Git ● Express JS
● ASP.NET ● MySQL ● SQL ● Sanity JS ● MongoDB ● PostgreSQL ● Firebase

Programming Language

● JavaScript ● TypeScript ● HTML/CSS ● C# ● PHP ● ASP.NET

Projects

VanMarket | Express JS Socket.io JavaScript DOM AWS/S3 MySQL May. 2022 - Jun. 2022

- Developed responsive and interactive user interfaces using HTML/JavaScript/CSS and EJS templating
- Improved user experience through the use of DOM manipulation, async/await functions, and Axios for AJAX calls
- Utilized MySQL to design and implement a highly efficient and scalable database structure, resulting in improved data management and retrieval capabilities
- Incorporated real-time chat functionality using Socket.io, resulting in an enhanced user experience and improved communication capabilities
- Utilized Amazon S3 bucket for managing and uploading images, resulting in cost-effective and reliable image storage solutions

MoodJorts | JavaScript DOM Local Storage Express JS Jun. 2022 - Jul. 2022

- Expertly utilized DOM manipulation to design interactive and responsive card elements, complete with dynamic image handling capabilities including adding, deleting and rearranging.
- Implemented an in-memory array to save and manage changes in user data, enabling undo and redo functionality for a more efficient user experience.
- Implemented Local Storage to save and persist user data, enhancing consistency and allowing for a seamless user experience across sessions.

WhatsApp clone | Next Js Tailwind Emoji.js Firebase Oct. 202X - Aug. 202X

- Developed a real-time Firebase-powered chat application with user authentication, message sending/receiving, and a dynamic UI using Next.js
- Implemented Firebase Authentication for secure user login and offers a user-friendly interface with a powerful search function, allowing users to initiate new chats at their convenience.
- Supports the sending of emojis and images, enriching the overall user experience and enables users to edit or delete their own messages for added ease and control.

Work Experience

Office/Warehouse Associate | The Home Depot

May. 2020 - Sep. 2021

Managed daily logistics of online orders in SAP using scan gun, ensuring accurate receipt, assignment, and closure of routes. Created and adjusted routes and weights in ship planning system for local lumber trailers. Accurately tracked special orders through daily data entry in a spreadsheet.

Education Qualification

Full-Stack Web Development

BCIT

Diploma

Sep 2021 - Apr 2023

Office Administrator with Technology

BCIT

Certificate

Jan 2019 - May 2019
